ANNUAL REPORT

FOREFRONT 

BUILD THE FUTURE

TO OUR SUPPORTERS

I have to be honest. Every year, we always set huge goals for our non-profit and at first, they seem daunting. We set these goals because we love the people we interact with and serve. We dream of a better future for them. Despite these "reach" goals, thanks to all our supporters, we are always able to give it our all and grow our impact year over year.

As I think about the word FOREFRONT, it has this essence of being at the front lines where there are many unknowns, trials and tribulations. And believe me, we experience all of that. However, that makes us stronger, smarter, united, more resilient, committed, and loving. Thank you to all our supporters for being at the FOREFRONT alongside us as allies.

We are all at the FOREFRONT of change. So be strong. Courageous. Inspiring. Full of joy. Together, we are making an impact, one community at a time.

Yours faithfully,

Matthew Oh

WHO WE ARE

OUR MISSION

**ENABLE
EVERY
PERSON**

**EQUIP
LEADERS**

**ESTABLISH
SELF-
SUSTAINING
COMMUNITIES**

WE DO THIS BY

Villagers used to spend 6 to 10 hours a day fetching water from contaminated sources. Through our clean water wells, soap distribution, and sanitation education, our villagers are healthier and now have more time for learning.

WATER

In Kolluru, female literacy is a low 32%, compared to an 86% world average. Through our school, children will engage in academically rigorous and joyful learning. Our students will develop skills in critical thinking, character, and creativity so that they can become active change agents.

EDUCATION

60% in India do not have access to health care. This keeps sick villagers from working, making it harder for them to provide for their families and send their children to school. Through low cost and high-value interventions, we improve the wellness of many communities.

MEDICAL

We train local leaders who love and know their communities. With their newfound resources, our local leaders will amplify impact and inspire more change in their neighboring communities.

LEADERSHIP

THIS LEADS TO LONG-TERM LOCAL TO LOCAL IMPACT.
